

Virtualization-ready NAS

with dual 10GbE SFP+

SmartNIC Ports

and iSER support

Robust • Durable • Expandable

TVS-x72XU Series

Dual 10GbE connectivity optimizes virtualization performance

Two 10GbE SFP+ SmartNIC ports with iSER support accelerates file sharing, data transfer, and VMware virtualization applications.

Expand NAS functionality with multiple PCIe slots

Install a graphics card or 40GbE/ 25GbE/ 10GbE adapters to increase the application potential of the NAS.

Optimized storage efficiency with SSD caching and SSD Over-provisioning

Software-defined SSD extra over-provisioning mitigates write amplification and optimizes SSD random write speeds for IOPS-demanding applications.
