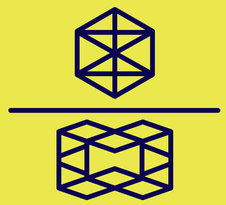
All-in-one server to host virtual machines and containers



Scalable storage supporting virtualization, containerized apps, centralized storage, backup, sharing, and disaster recovery.

Optimize storage efficiency with SSD caching and SSD over-provisioning

Software-defined SSD extra over-provisioning optimizes SSD random write speeds and extends SSD lifespan.

Auto data tiering for optimal storage efficiency

Qtier technology optimizes the performance and utilization of storage by automatically moving files and data across HDD/SSDs based on access frequency.
