

Enterprise Class NAS

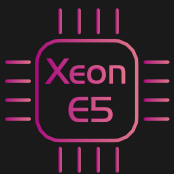

# TDS-16489U R2

Dual CPU NAS with support for QTS and QES

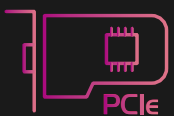

## Convertible NAS that supports two operating systems

The powerful enterprise-class TDS-16489U R2 provides flexibility for users to choose their operating system – either the FreeBSD-based QES or Linux-based QTS.

## Multiplied computing power with dual Intel® Xeon® E5 processors

At the heart of the TDS-16489U R2 are Intel® Xeon® E5 processors that deliver exceptional performance to efficiently handle complex, high-demanding workloads.

## Abundant I/O capabilities with PCIe expansion

Install PCIe cards (including 40GbE/25GbE/10GbE adapters, Fibre Channel cards, and graphics cards) to enhance the core functionality and performance of the TDS-16489U R2.
