

Unmanaged switch with 10GbE SFP+ ports and Gigabit ports

QSW-308 Series

Flexible deployment with multiple 10G SFP+ fiber and Gigabit ports

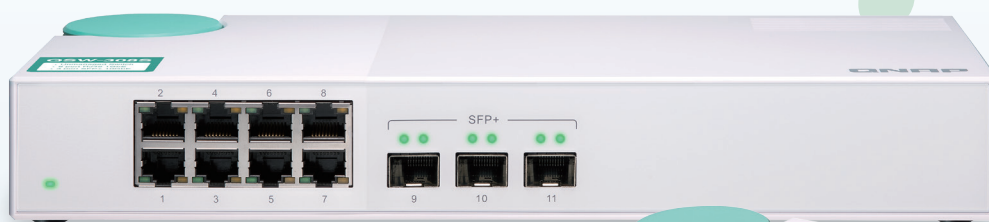

QSW-308 Series provides three 10GbE SFP+ ports and eight Gigabit ports for connecting a variety of devices.

Faster speeds with existing cables using 10GBASE-T and NBASE-T

The QSW-308-1C is compatible with 10GBASE-T and NBASE-T technologies that can achieve higher transmission speeds with existing cables.

Improve work productivity with QNAP 10GbE NAS

Build high-speed network environments easily with QNAP 10GbE NAS and QSW-308 series switches to empower IOPS-demanding applications.
