

TR-004U

4-bay Rackmount USB 3.0 RAID Expansion Enclosure

- USB 3.0 Type-C port for faster data transfer.
- Supports up to four SATA drives for reliable read and write performance.
- Use the DIP switch to change between hardware-based and software-based RAID management.
- Supports RAID 0/1, Individual, and JBOD modes.
- Lockable hard drive trays to prevent accidental drive removal.
- Manage data with the QNAP External RAID Manager utility (for Windows and macOS).
