

TS-1685

High-capacity 16-bay Xeon D Super NAS

- NAS and iSCSI-SAN unified storage solution
- Built-in M.2 SATA 6Gb/s slots & 2.5" SSD slots
- Qtier technology and SSD caching enable 24/7 optimized storage efficiency
- 10GbE/40GbE expandability, highly-efficient storage solution for virtualization and intensive data transmission
- Storage for comprehensive virtualization applications
- Optimized performance for VMware Virtualization with iSER
- Q'center for centrally managing all of your NAS devices, and QRM+ as a centralized management solution for networked computing devices
