

QNAP

All-Flash Enterprise ZFS NAS ES2486dc

Optimized for inline deduplication and all-flash applications.

High availability with Intel® Xeon® D processors

The ES2486dc features Intel® Xeon® D processors with dual active-active controller architecture to ensure business continuity and provide businesses with near-zero downtime high availability.

NVRAM modules for enterprise-grade performance

The ES2486dc provides battery-protected DRAM write to cache data protection, and Flash read acceleration provides industry-leading random access performance.

Abundant I/O capabilities with PCIe expansion

Install PCIe cards (including 40GbE/25GbE/10GbE adapters, Fibre Channel cards, and graphics cards) to enhance the core functionality and performance of the ES2486dc.

High performance remote replication

Near-limitless snapshots and SnapSync for snapshot remote backup assists businesses to promptly resume essential services.
